Spot On Reading (Secondary 1 – 2 Normal Technical)

Spot On Reading is a series of 10 readers, each comprising 10 interesting and well-illustrated stories, carefully selected based on their Lexile® text measures*, to ensure learners are reading texts suited to their reading abilities. The stories are arranged in increasing difficulty, allowing learners to encounter the easier stories first to boost their confidence and motivate them to read. The comprehension practices are designed to help learners explore the texts in greater depth.

**Key Features**
- Each book includes:
  - 10 short stories spanning 150 Lexile® and arranged in increasing difficulty
  - Comprehension exercises with literal, inferential, and applied questions

**Award-winning Stories** (Secondary 1 – 2 Normal Technical)

Asian-inspired stories that educate, inspire, and motivate readers as they learn and appreciate cultures other than their own. These award-winning stories are rich in multiculturally-immersed vocabulary and texts that expand and enhance readers’ imagination.

*Lexile® measures are currently the most widely adopted reading measures used by more than 150 publishers. The Singapore Lexile® Map is created by measuring texts from the STELLAR program, PSLE English papers and GCE ‘O’ Level English papers, and synthesizing these measures to create a continuum of reading performance. Using The Singapore Lexile® Map, teachers are able to match students with books at the appropriate reading levels and help students develop reading proficiency.
