

Words Connect Concepts To Ideas and Ideas to Knowledge

Scholastic W.O.R.D.™ is a researched-based program that supercharge the vocabulary acquisition and closes the vocabulary and knowledge gap through 10 cross-curricular themes that are designed to grow, challenge and deepen students' reading comprehension skills.

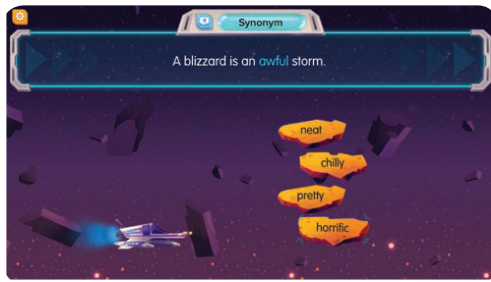

Intentional, game-based instruction focuses on the 2,500 morphological word families that students will encounter most often in text

Supports core instruction by teaching new words in context across the content areas

Here are the 10 themes which students will come across as they learn to acquire the core vocabulary in each level:

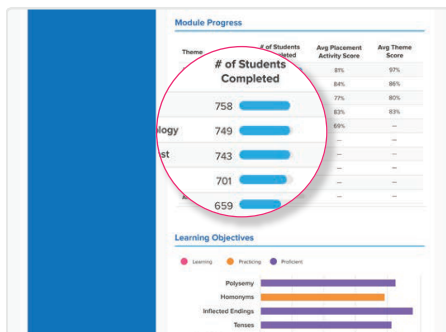

Optimize Learning with Engaging Game-based Activities

- Ensures that critical vocabulary skills are introduced at the appropriate grade level for students.
- Skills become more complex as they move through the program with the use of higher-level vocabulary and content in a fun and engaging way.

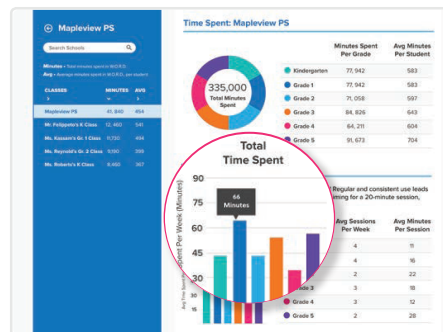

Inform Instruction with Actionable Reports

- Data are easily accessible and actionable for educators at every level.
- Reporting is delivered in real time for each student, class, and school.
- District-level reports are rolled up daily - giving educational leaders full insight to best support teachers and students.

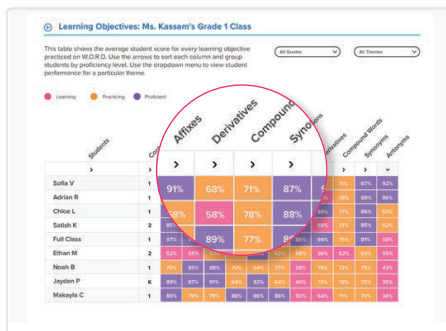

Overview Reports

Overview reports are filled with the richest and most impactful metrics, providing educators with timely information to help meet their instructional goals

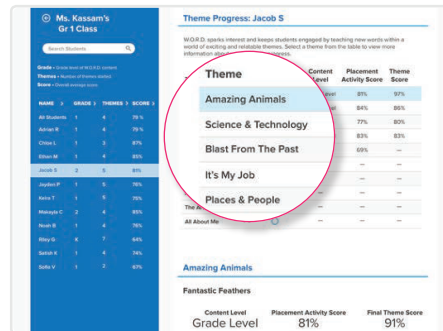

Time Spent Reports

With key metrics or usage by week, per session, and per student, educators at all levels can get greater insight into student engagement, effectiveness, and ROI

Proficiency Reports

Sorting by proficiency allows educators to differentiate instruction by specific vocabulary skills and create flexible, small groups of students.

Theme Progress Reports

Monitoring theme progress helps educators assess students' gaps and gains across ten themes, purposefully designed to build core bodies of knowledge.

Integrate Seamlessly into Any Classroom

- Recommended for any literacy program targeting students aged 4 - 11 years old.
- With 20-minute sessions, 3 days per week, this program is the perfect independent learning solution for vocabulary instruction.

About Scholastic

Scholastic is the world's largest children's books publisher and distributor, transforming the learning lives of children with quality resources since 1920.
